Joslin Diabetes Center

“Reality Check” Reactor Panel (Are We Moving in the
Right Direction to Improve Early Diagnosis and
Outcomes for Diabetes?)

Ann M. Sheehy, MD, MS, Associate Professor, University of Wisconsin School of Medicine and Public Health

John E. Anderson, MD, President, Medicine & Science, American Diabetes Association

Stephanie Mayfield, MD, FCAP, Commissioner, Department for Public Health, Commonwealth of Kentucky

Christopher Porter, Senior Director, Government Affairs, Novo Nordisk

Learning Outcomes

- Find and correct diabetes screening “blind spots” by improving provider awareness of risk factors
- Work with your state policy makers
- Implement community-based prevention initiatives, i.e. “meet patients where they are”
- Encourage employers to adopt screening interventions
- Collaborate with payers on engagement techniques
- Develop a plan for the newly insured and vulnerable populations
